Assault on Lincoln by War Veterans of South May Be Taken Up

G. A. R. IN SESSION

Return of Southern Flags to South Is Opposed by Men Now in Des Moines

By the Associated Press.
DES MOINES, Sept. 23.—Echoes of the cannon which belled the coming of the Civil War are heard in the city of the Confederates as the G. A. R. convenes its annual session here today. \$12,500 ENOUGH FOR MRS. FISKE

She Won't Appeal Verdict If It Stands, Pretty Plaintiff Says

Mrs. Melba Fiske-Crosbie, 420 East Nineteenth, pretty plaintiff in a \$50,000 damage suit against Roy Fisher and his father, J. W. Fisher of Oklahoma City, is satisfied with the judgment of \$12,500 in her favor, awarded Friday by a jury in District Judge Redmond S. Cole's court.

She explained to a reporter for The World Saturday that she will make no further effort to obtain redress for her injuries providing there is no decision that the local district court is without jurisdiction in assessing damages against the defendants, who live in Oklahoma City.

What she will do if the jurisdictional question is not decided in her favor she was not prepared to state. Mrs. Crosbie sued Roy Fisher, alleged former fiance, for injuries she sustained when a Mercer car he was driving on Federal drive crashed into a concrete culvert on the night of June 20, 1921. She included his father in the suit on the ground that he was driving the car at the time of the accident. Mrs. Crosbie's car was damaged and she was injured. The jury awarded her \$12,500 in damages.

WANTS STRICTER LAW

Admission of Only Those Aliens to U. S. Who Are Eligible to Be Citizens Asked by Johnson.
WASHINGTON, Sept. 23.—Reduction of the immigration flow by admitting into the United States only those persons eligible to citizenship is urged by Chairman Johnson of the house immigration committee in a speech printed today in the congressional record.

The country seems to want complete suspension of immigration, says Johnson. "That is impossible, it seems to me, for we should leave an opening for the admission of immediate relatives of citizens of the United States and permanently domiciled aliens, for their fathers, mothers and children, but not for their uncles, cousins and aunts." Johnson recommends a reduction in total admissions by reducing the percentage quota to two or even one and one-half per cent. Tightening up of the literacy tests also is suggested, together with regulations providing for a more thorough physical examination. Johnson declared excepted classes, such as students, actors and members of certain professions should be admitted for temporary stay only.

GASOLINE RECORD BROKEN IN JULY

July Output Was 56,000,000 Gallons Over That for May, Figures Show

WASHINGTON, Sept. 23.—All previous records for monthly production of gasoline in the United States were broken in July when 56,711,415 gallons were produced, according to figures compiled by the bureau of mines. The July output reports an increase of 14,000,000 gallons over June production and 56,000,000 gallons over the figures for May. The increase over July of last year is 150,000,000 gallons.

Domestic consumption of gasoline for July was also the largest ever recorded in a single month, amounting to 36,000,000 gallons as compared with 32,000,000 gallons for June and 37,000,000 gallons for July of last year. Stocks on hand August 1, were 172,508,545 gallons or 6.31 per cent less than the figures for July.

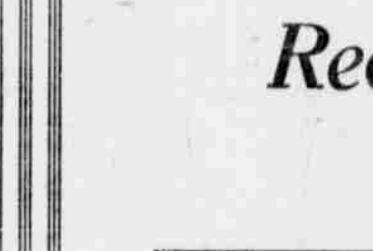

Imports of gasoline for July amounted to 4,846,955 gallons, exports were 88,620,402 gallons and shipments to insular possessions were 1,866,789 gallons.

There are 21,371,820 gallons of wine now stored in bonded warehouses and wineries in California.

GIRL HIJACKER GIVEN FREEDOM

14-Year-Old Lass, Agnes Haskett, Released by County Attorney

Agnes Haskett, 14-year-old girl, who was arrested with the Jacobs gang at Eighth and Kenosha in a midnight raid a month ago by County Investigator E. J. Bays and other officers, was released from the county jail Saturday on her own recognizance by order of County Attorney W. F. Seaver.

The Haskett girl has been confined in the jail since the night of the raid on a charge of knowingly receiving stolen property. She is now in the custody of her mother. Frequent efforts by the county attorney's office to elicit information from the Haskett girl concerning operations of the Jacobs gang have been futile. She has determinedly resisted questions, insisting that she knew nothing of hijackings and claims alleged to have been committed by her Jones, Fred Edwards, C. W. Handy, Carleton and Alva Smith, Albert Slane, Alton Stroud and other members of the gang.

When pressed for replies that would throw light on the gang's operations she nearly always burst into tears with the declaration, "I don't know anything."

That she has not chosen her associates carefully in the belief of Bays and members of the county attorney's office.

COX SAYS TARIFF WILL BE ISSUE

Then International Question Must Not Be Lost Sight of, Says Ohioan

By the Associated Press.
CLEVELAND, Sept. 23.—Asked "What the issue will be in 1923, for Mr. Gov. James M. Cox of Ohio, and democratic nominee for president in 1924, declared here today in his first address since his return from an extensive tour of Europe made before the Ohio club, that "the people this year will be asked to elect a congress that will undo the present tariff monstrosity."

"But we will not lose sight of another great question—the international one," Cox added. "It will be more pertinent for discussion, however, in the great national forum of 1924."

"When a surgeon finds an injured man suffering from a severed artery and a broken leg, he sews up the artery first. In the present instance had as the international wound is the domestic injury inflicted by the most incompetent congress in all history is even worse," he said.

"The Trap" was the name of the film that the poster advertised.

Coroner W. J. McGregor and experts of the department of building inspection said that many of the joints were rotten.

"So" Beland, proprietor of the theater who with more than fifty children was injured, placed the blame on the builders and municipal building inspectors. He said the building was recently pronounced safe by the municipal experts.

"Placing criminal responsibility will rest with the coroner's jury," said McGregor.
